Here is an example of how the Mars 360 system would work for the Mars-5 demographic. Here is a sample of charts below, all of which would be classified as Mars-5. First notice the layout of the seals and apply that to the charts below.

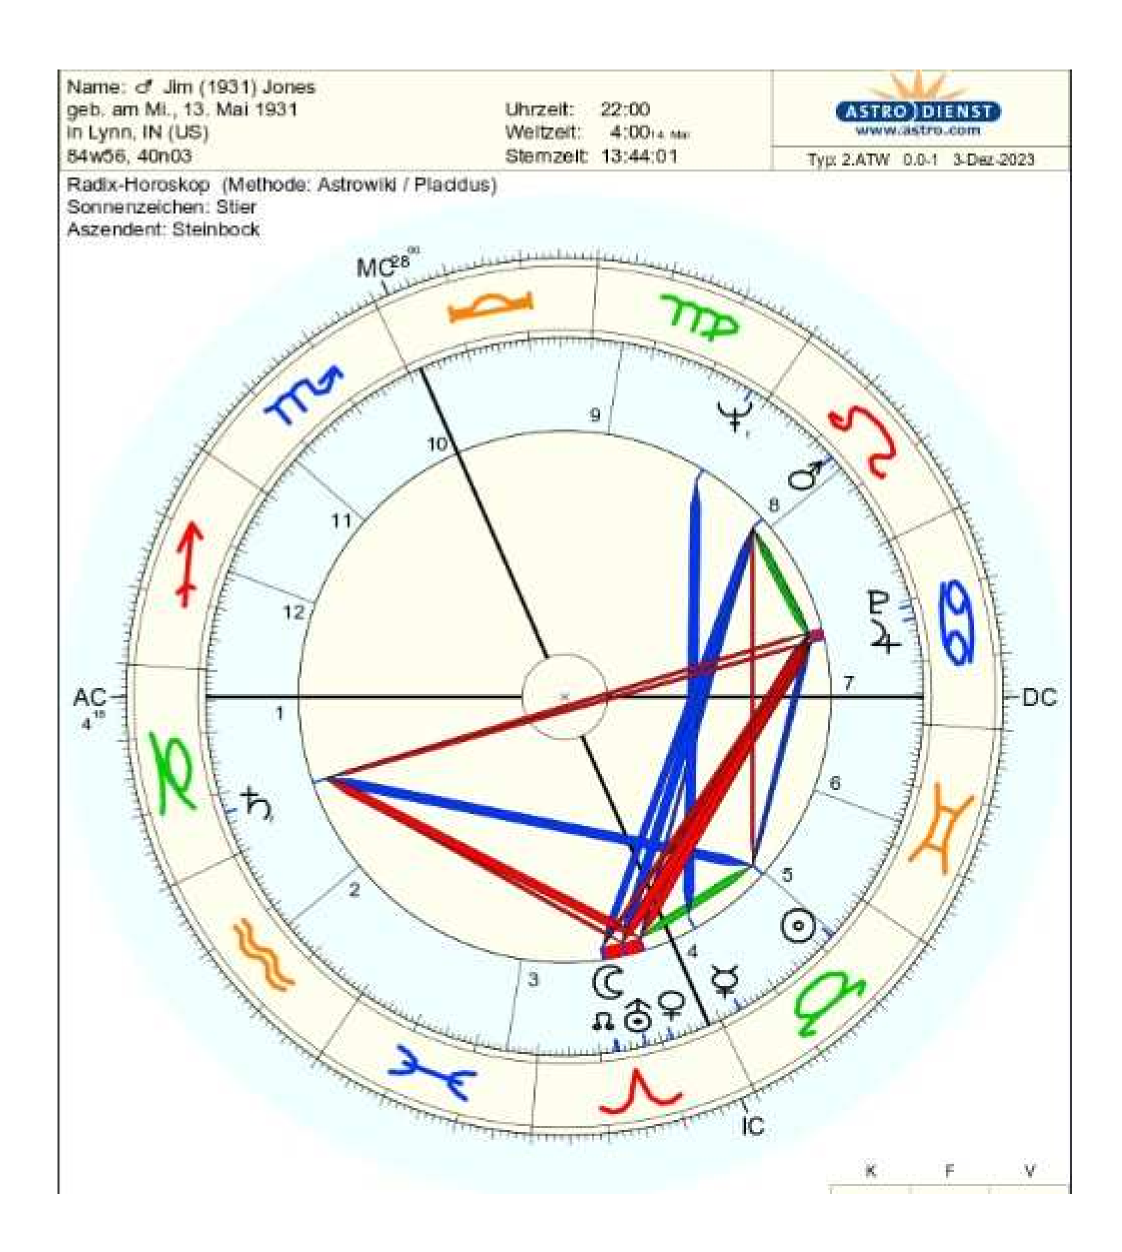

Notice where the 5th seal is located. The 5th seal is designated as causing a person to lack the energy to concern himself with the necessary reverence to authority, established authoritarian structures, regular work, obedience, and finance. At their worst, these are genuine threats to established authority, the economy, and public figures. Under Mars 360, these types would be granted the privilege of not having to work a day job. If they do work, the system would see to it that they are granted full autonomy, without having to answer to authority figures. These archetypes will be labeled potential lazy anarchists at birth with a Mars-5 designation. They would also be labeled communists and pacifist, but hostile to the authorities.

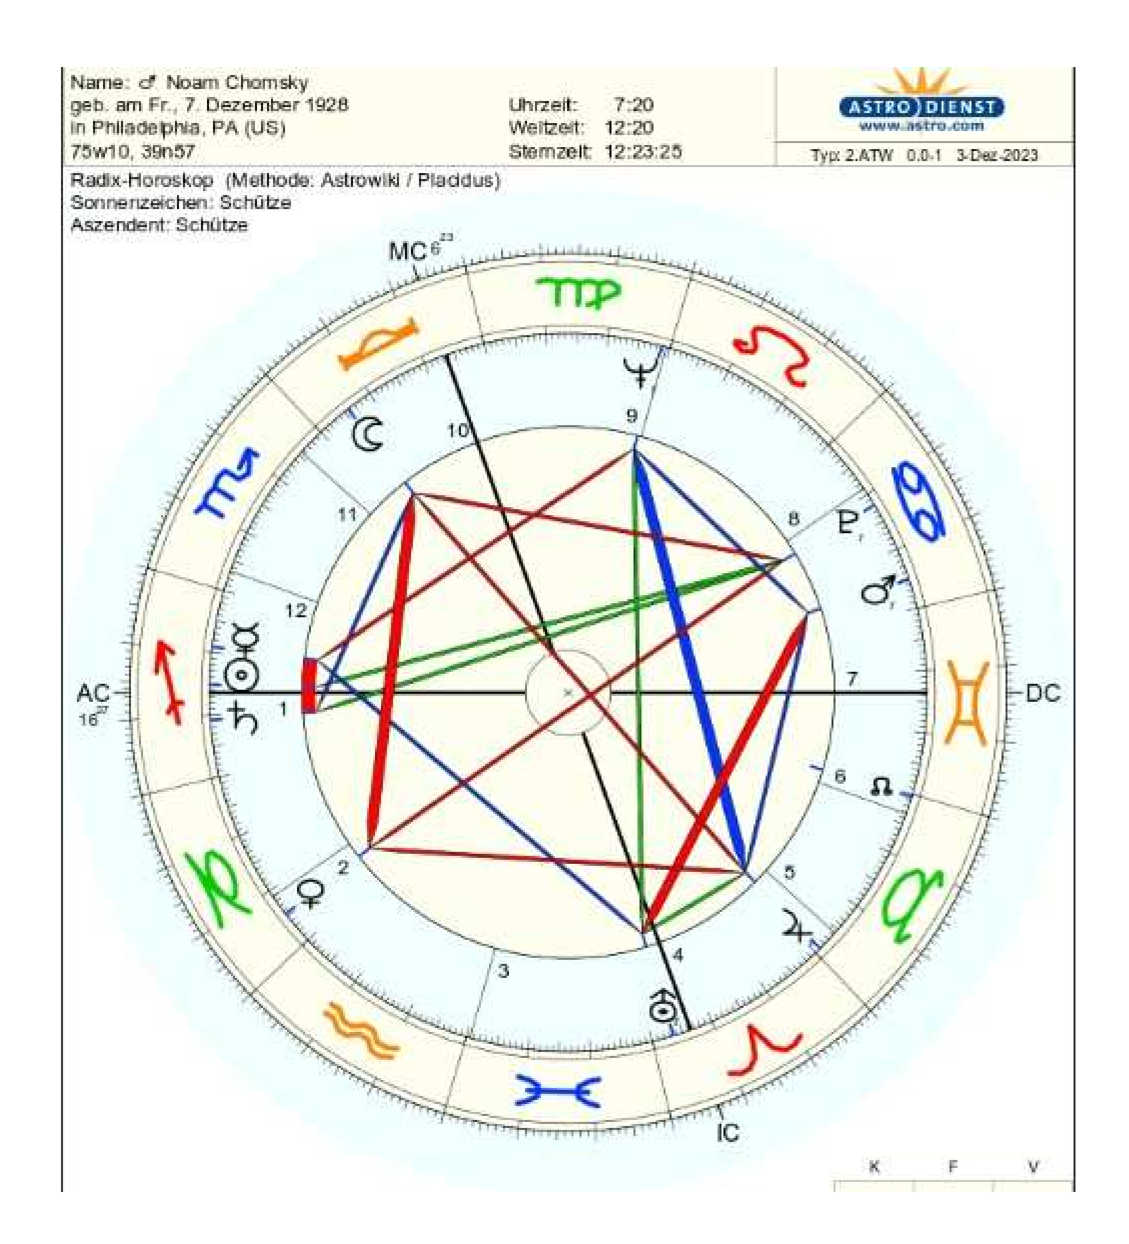

This archetype lacks the energy to concern himself with the basic work requirements of daily life. These are inherently unable to work a regular job and often develop pacifist anti-authority communist leanings regarding work and finance. As a result, the Mars 360 system will pander to them by having them live for free without having to work a reguar day job. Notables here are Martin Luther King Jr?, Noam Chomsky, Jim Jones(cult leader), Lee Harvey Oswald, Mark David Chapman, Andrew Cunanan, and Barack Obama

So now, here are the charts

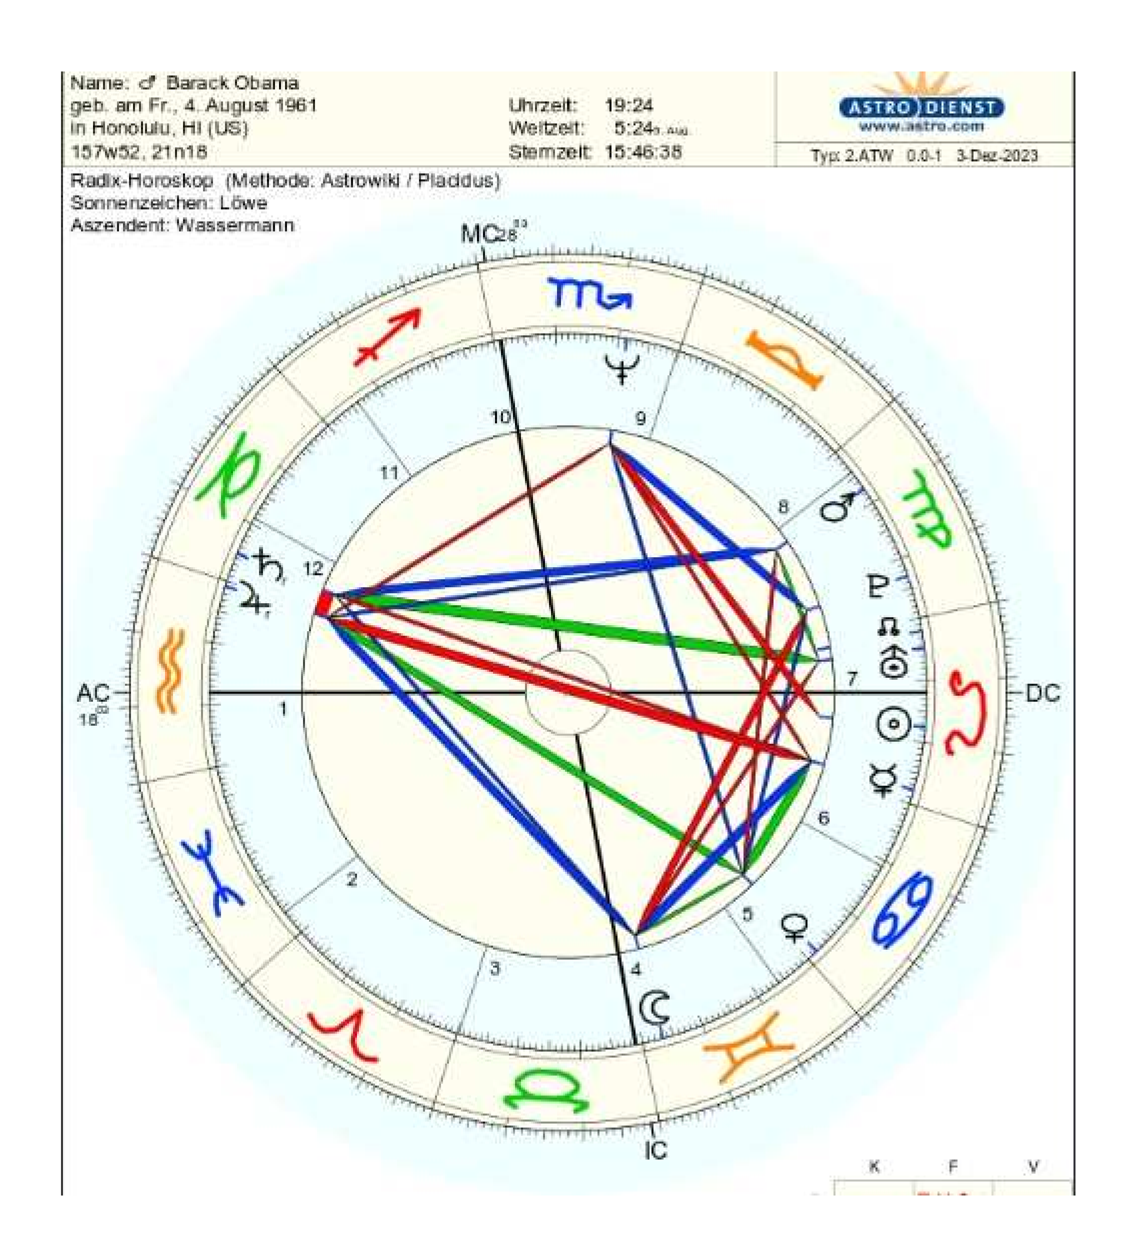

This is Jim Jones, communist, God-hating religious leader that led 900 people to commit suicide by poison. He was on the government's watchlist, as he expressed his desire for communism and his disdain for the authorities, including God. He would have been classified as a Mars-5 at birth and been given the subsidies that would have pandered to his lazy and comminist outlook

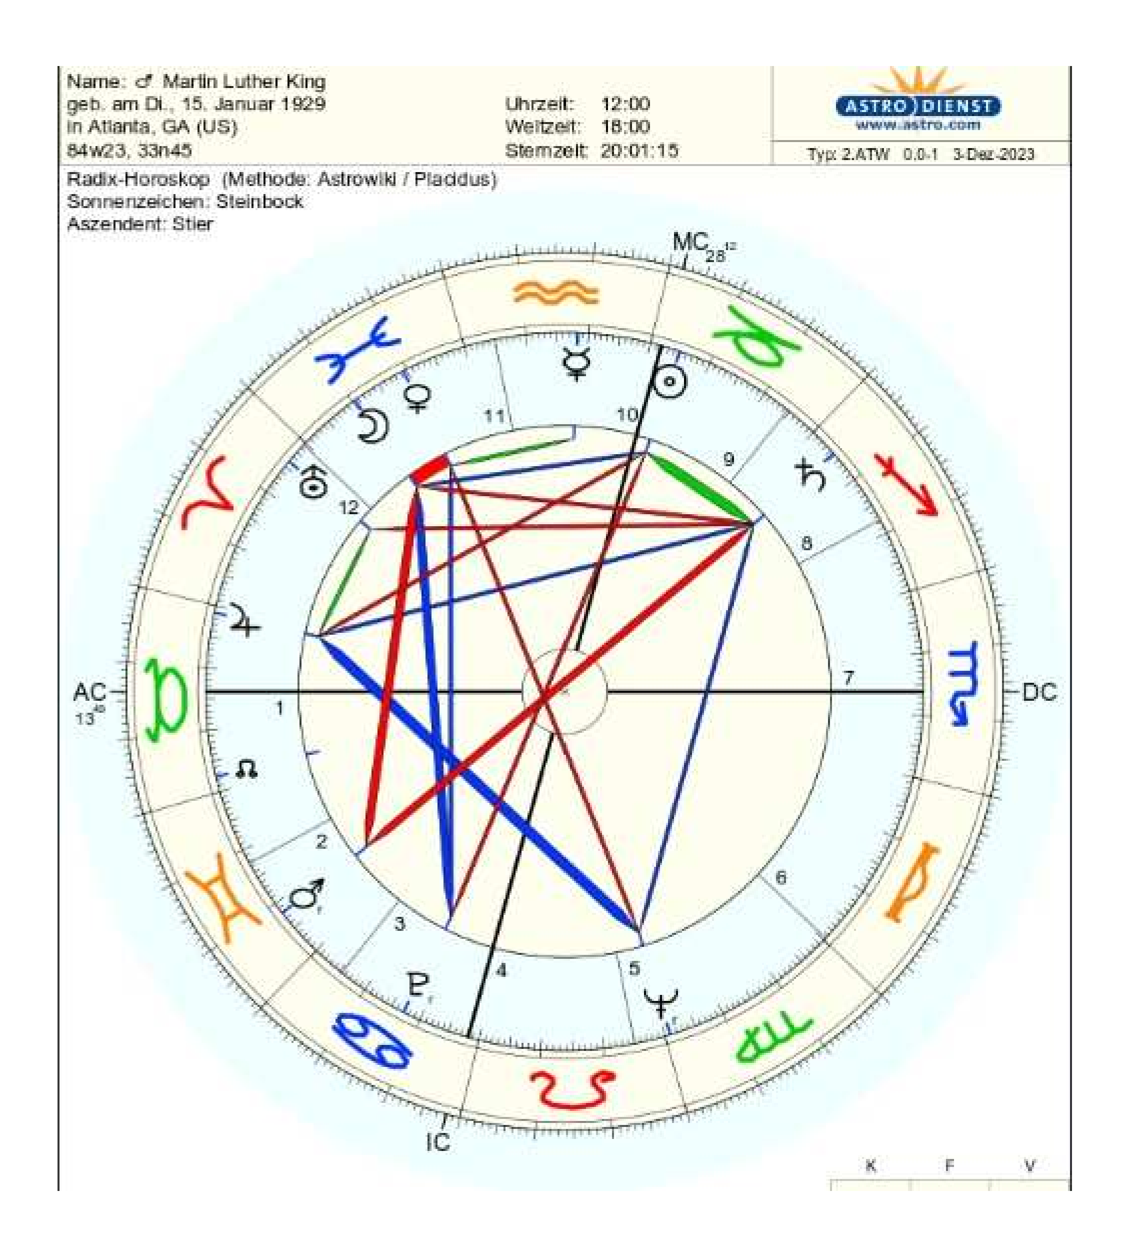

This is Noam Chomsky, the pacifist writer and linguist who was critical of the US military and their operations oversees. Noam Chomsky has expressed disdain for authority and authority strutures, including religion. He is considered an anarchist and a threat to the authority structure. He also spoke out against the need to have a job, saying in an interview

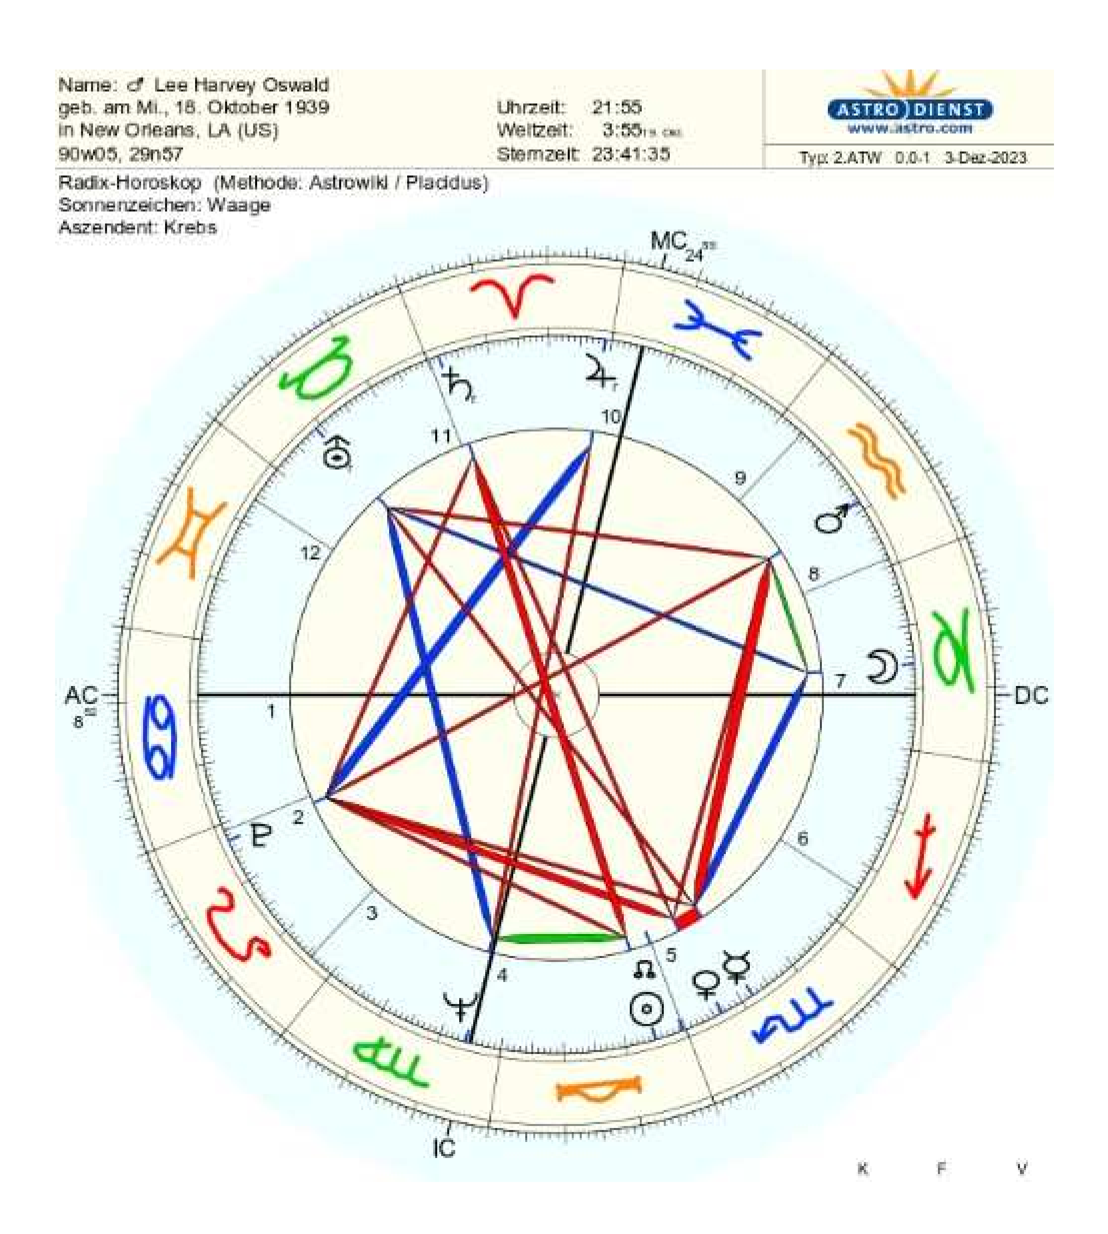

“When you have a job, you're under total control of the masters of the enterprise. They determine what you wear, when you go to the bathroom, what you do – the very idea of a wage contract is selling yourself into servitude. These are private governments. They're more totalitarian than governments are.”

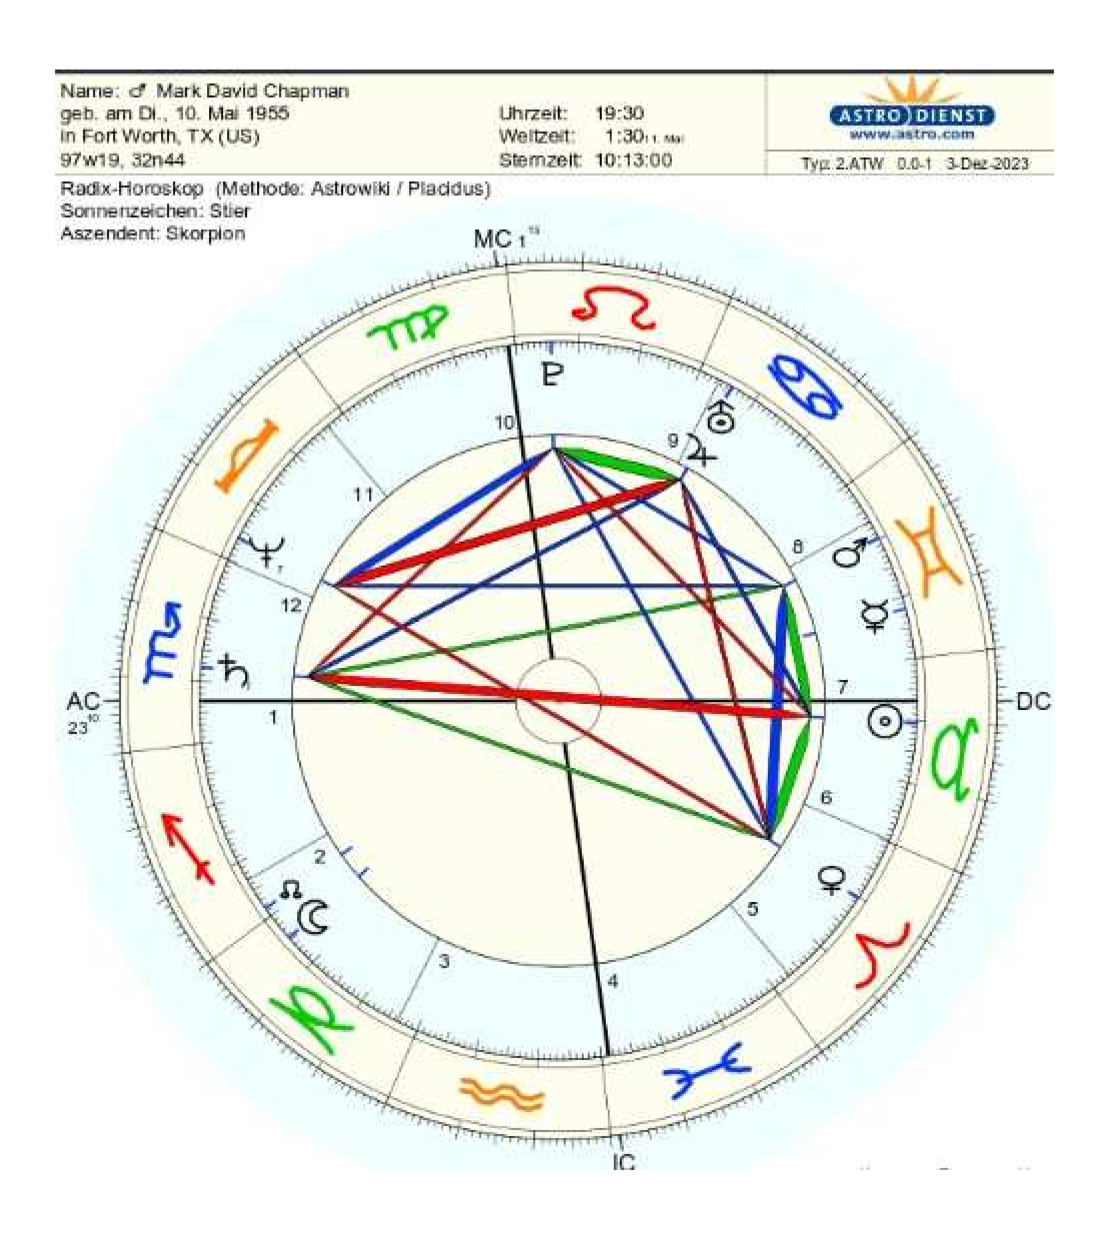

This is Barack Obama, the 44th President of the United States, who never worked a regular 9-5 job and admitted that his worst trait was laziness. GW Bush also had this placement. Any president with this Mars-5 placement is a threat in that their pacifism/laziness will lead them to delegate all work and responsibility.

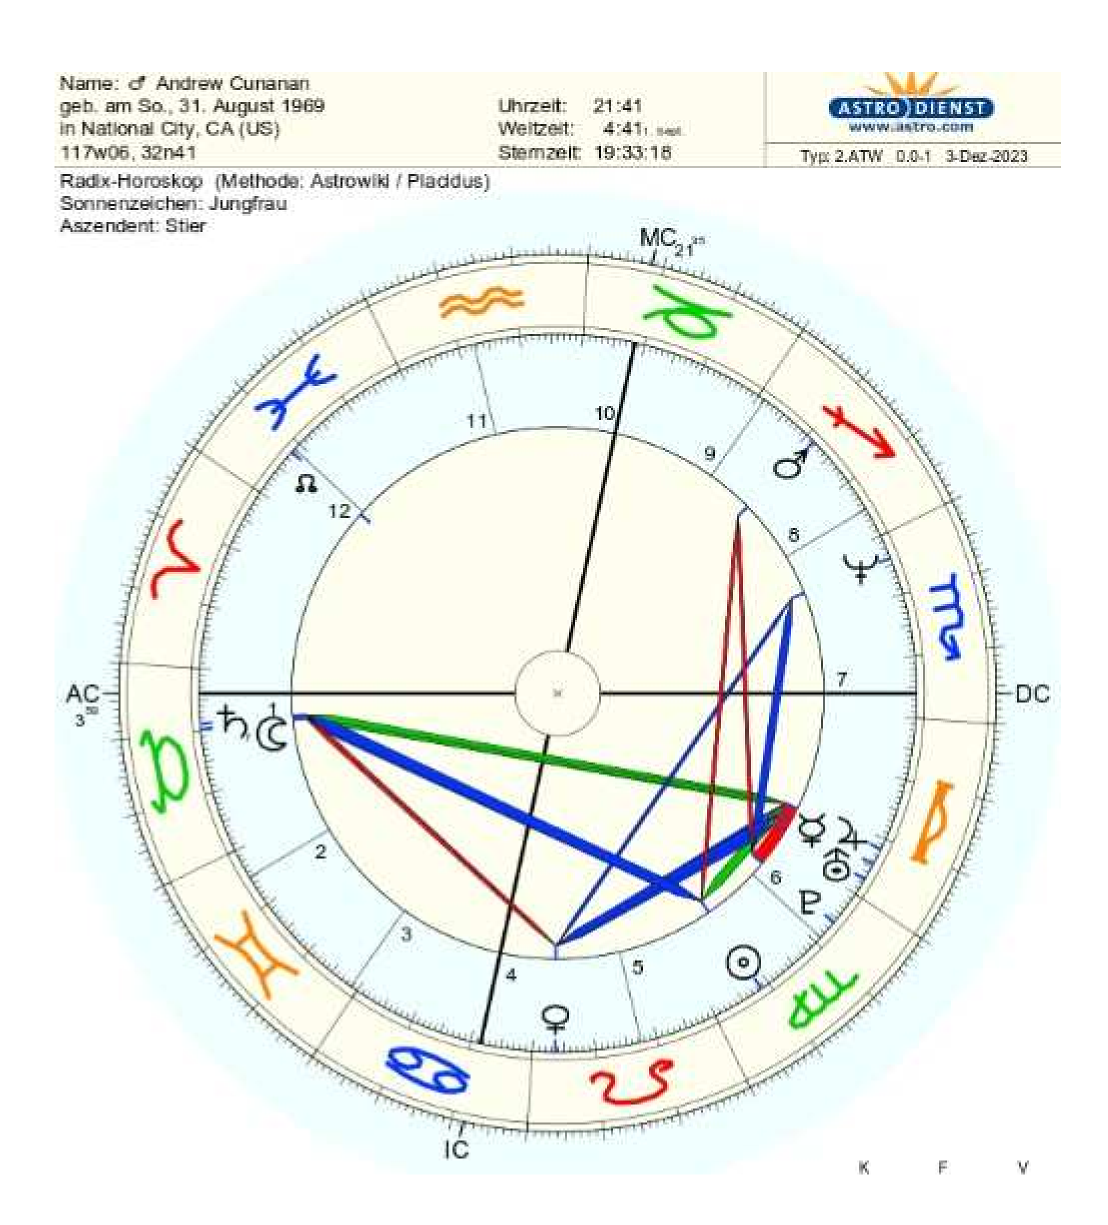

Martin Luther King is somewhere between a Mars-5 and Mars-6. Mars-5 is possible because of his pacifist, communist leanings, as well as the fact that he was considered a threat to the authorities. Hence why the FBI had him under intense surveillance. He was still nonetheless a champion of non-violence, albeit a threat to the established structure of segregation at that time.

Lee Harvey Oswald, an assasin and communist, who shot and killed John F Kennedy. He wanted to defect to the Soviet Union because he felt the workers were slaves in the US capitalist society. Under Mars 360, he would have been marked as a Mars-5 at birth and given government subsidies so that he would not have to work.

Mark David Chapman was a protoype loser, college dropout who could not hold a stead job. He targeted and killed status figure John Lennon. He would have been marked as a Mars-5 under Mars 360 and given subsidies so that he would not have to work.

Andrew Cunnanan was another work shy person who could not work a regular job and had to seek the company of sugar daddies in order to sustain himself. He later shot and killed status figure Gianni Versace. He would have been marked as a Mars-5 at birth and given the means to live without having to work a regular job.

This is an example of how a new demographic created under the Mars 360 system transcends racial, cultural and even national boundaries. This one world system is explained in the book “The Mars 360 Religious and Social System”
